

Task A:

Write a 'related fact' web, e.g. using $8 \times 6 = 48$ or $17 \times 8 = 136$

Task B:

Find 3 ways to calculate 16×9 :

Task C:

Answer this sequence of questions. Describe what's different between each calculation. Then design your own sequence of questions.

$$17 \times 6 = 102$$

$$17 \times 7 = \boxed{}$$

$$15 \times 9 = \boxed{}$$

$$15 \times 7 = \boxed{}$$

$$15 \times 18 = \boxed{}$$
