

Extend

I have a daughter aged 5 called Lilly and a daughter aged 8 called Catherine.

I measured our hand span, cubit length and head circumference.

One of us has a hand span of 19cm.

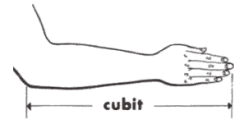

One of us has a cubit of 25cm.

One of us has a head circumference of 53cm.

Hand span:

Cubit:

Head circumference:

Match the measurement to the correct person.

Explain how you know. The answer will be revealed in tomorrow's video!
