

Task

There are 56 children in KS1 and 119 children in KS2. This graph shows how many children go to each of the after-school sports clubs:

What does this graph show? Give suggestions to Bridge Green Primary School about their next sports club.

Suggested Answers:

There are the same number of KS1 and KS2 clubs, yet there are more KS2 children. Not as many KS2 boys attend clubs. Consider introducing non-team sports in KS2 and possibly an indoor sport e.g. gymnastics, martial arts or table tennis.
